# VIOLET FLAME

FOR CENTURIES, alchemists have sought to change base metals into gold. But the transmutation of metals like lead into gold is symbolic of a higher and more noble alchemy -- the alchemy of self-transformation.

SELF-TRANSFORMATION was the goal of the most spiritual of alchemists. They sought a way to change the lead of negative human energy into the gold of divine energy, and some of them achieved this by using the violet flame.

The flame is the essence of a unique spiritual light. Mystics of all ages have glimpsed a spiritual spectrum behind the physical spectrum. Radiant colors, more pure and rare than those found on earth, emanate from a brilliant, inner divine light. Just as a ray of sunlight passing through a prism refracts into seven colors, spiritual light splits into seven colors, or rays - each of which has specific divine qualities. The violet flame comes forth from the violet ray, which has the qualities of mercy, forgiveness, freedom and transmutation.

## The Violet Flame is a wondrous action of Spiritual Alchemy

The Violet Flame is a combination of the blue and pink ray. It is not one ray by itself. It is a combination of blue for power and pink for love, uniting the energies of the divine masculine with the divine feminine in a wondrous action of spiritual alchemy.

## How the Violet Flame Works

The violet flame works by changing “vibrations”. In physics, vibration is the speed of oscillation - the speed at which something moves back and forth. On the atomic level, vibration can be understood to be the speed at which electrons orbit around the nucleus of the atom. The violet flame works by changing vibrations on this level.

Atoms are mostly empty space. The empty space between the nucleus and the electrons is where negative energy and karma can become stuck. When the atoms in our bodies and auras become clogged with this negativity, the electrons whirl slower and slower, and we begin to resonate more with negativity, and less with light - we have a lower vibration, and become less spiritual.

When you call for the violet flame, it sets up a polarity between the nucleus of the atom and the white fire core of the flame. The nucleus, being from matter, assumes the negative pole and the white fire core of the violet flame, being Spirit, assumes the positive pole. This interaction sets up an oscillation, a vibration that dislodges the density. Thus when there is less density within the atom, the electrons whirl faster and faster, thereby raising your vibration.

On contact with the violet flame, this dense substance is cleansed, purified, and restored to its native purity (transforms it back to the divine light). The electrons begin to move freely again, and raise our whole vibration and our energy level.

The violet flame transmutes this negative energy. It does not simply surround and remove the energy, but transforms it into light.

When you have a higher vibration, there is more spiritual energy in your body. Acupuncturists and yogis know that optimum health comes when this spiritual energy flows freely throughout the body. The violet flame frees up this energy and re-establishes harmony and equilibrium, propelling you into a more spiritual state of being.

### **Common Question: Will the Violet Flame just get “rid” of it?**

The Violet Flame will not “just get rid of it”. That is not its purpose. The Violet Flame will assist in balancing it, but it will teach you as well the lessons you need to learn, albeit in a more gentle way.

If you remain in resistance to the lessons and the understanding that your challenging situations teach you, the use of the Violet Flame may not bring the desired results.

It cannot be misused to prevent you from gaining experience and wisdom that are ultimately the true meaning of Karma.

Yet there is a difference between learning a lesson in a gentle way, from wise guidance that you embrace, too living through a very difficult experience in order to receive the same understanding.

Do you see the difference? The Violet Flame can bring you to a space where you learn the lessons in a very loving and gentle manner, where you can learn in ease and grace. It does not have to be as painful or difficult as what you are choosing to experience with your lessons at this time.

Your resistance to open yourself to the higher and easier ways is what creates the harshness in your lives.

### **The Alchemist's Dream**

The violet flame is a tool of self-transformation. Physical experiments in alchemy whereby base metals are transformed into gold are symbolic of what the violet flame does.

In medieval times, alchemists attempted to transmute base metals into gold, using heat to separate the “subtle” from the “gross”. While there have always been alchemists who sought to create wealth by transmuting base metals, this process of transmutation is symbolic of a higher and more noble alchemy - the alchemy of self-transformation.

Transmutation, then, was not just a process which turned base metals into gold, but a spiritual process which raised the soul into a state of unity with the Divine.

## Invoking Violet Flame with the Science of the Spoken Word:

Since we qualify the energy that Universe gives us with every heartbeat, most likely some of it is not qualified in the best way. For example, any time we lose our temper, get annoyed, or spend our time judging others, we are negatively qualifying that energy. Well, there is a spiritual science to transmuting that energy.

We can affirm the energy of the violet flame into our lives by means of the Science of the Spoken Word (I AM Presence\_.

*Abracadabra:*

*As I speak - I create.*

The conscious spoken is a command for the will of Divine to be manifest. When you use violet flame decrees, you are commanding the flow of energy from spirit to matter. You are no longer a just petitioner, but are entering into a partnership and an interactive relationship with the Divine.

From the Lord God of my Being,

I AM That I AM,

I call to beloved Saint Germain, Lady Portia, Quan Yin and thy legions of cosmic Violet Flame angels to come forth to infuse and saturate my being with all activities of the Sacred Fire, especially the Violet Flame of Transmutation and Freedom.

- Cloth me with your cosmic mantel of Violet Fire of Transmutation, Healing, Freedom, Diplomacy, and the Science of True Alchemy.
- Dissolve and consume from my being all that does not reflect perfect Love and Harmony.
- Through Mercy's Flame, transmute all errors of the past and barriers to my Ascension.
- Protect the youth of this world in an aura of Violet Flame.
- With much gratitude, I ask this to be manifest in the Divine's holy name.

And so be it, Beloved I AM!

## Transmutation of Distortions

In the name of the I AM of my being,

in the name of the Divine,

I now call forth the action of the Violet Flame of transmutation, of compassion and forgiveness in my auric field, for the cleansing and purifying of every thought and feeling in my solar plexus and in all of my chakras.

I ask the action of the Violet Fire to permeate every cell, atom and electron of my four body systems at this moment, and at all times each day of my life, 24 hours a day, 7 days a week for the healing of all distortions in my energy fields from past and present misunderstandings,

I ask the energies of the Violet Fire to start healing all distortions in my physical, emotional and mental bodies.

With much gratitude, I now ask for the action of the Violet Fire to manifest in my energy fields in full power.

And so be it.

## Violet Flame to restore the World

In the name of the great I AM,  
I call to beloved Saint Germain,  
to saturate the world with waves upon waves of Violet Fire,  
to infuse every particle of life, every man, woman, and child on this planet in an auric  
field of Violet Flame to protect and to awaken them.

I ask that this action be sustained until perfection is restored.  
And so be it.

## Utilising the Violet Flame for Transformation, Transmutation, and Transcendence

1. Immerse yourself in a sacred space. Light a candle / burn incense if possible.
2. Sit with your spine straight. Relax your shoulders, and have your palms facing up on your lap / knees (if assuming yogic posture / open to receiving energy from the universe).
3. Breathe deeply from perineum/pelvic floor to the crown of your head. Ignite Ujjayi if you know it.
4. Direct your focus to heart based coherence, to be grounded and conscious.
5. Utilise the power of consciousness to visualize your entire energetic field, from subtle to dense, from atoms to particles, from physical to light, perpetuating and spiraling - inwards out - in a toroidal flow/flux with flaming violet iridescent light (you are welcome to close your eyes to do this - then reopen when it is time to speak / unless you have memorised the invocations).
6. Invoke the divine presence. By speaking and commanding the words  
“ I invoke the Divine Presence within me now and forevermore:
7. Then Speak and command the words:

*“By the grace of the violet light ray of transformation, transmutation, and transfiguration,*

*It is commanded that all forces not in alignment with my Soul's Transcendence;*

*In relation to the initiation/unfolding the Divine is reflecting to me in this eternal moment*

*{Be specific, authentic, humble and direct}*

*Be transmuted by the inner realization*

*That I am innately, purely, absolutely LOVE.*

*And by the transforming power of the violet ray.*

*May the particles of my being, in relation to this initiation/unfolding.*

*Transmute into the light in which it manifested from.*

*The light, that is love. Boundless, unified and liberated.*

*It is done. It is done. It is done.*

*Tat Tvam Asi.*

*I am that. That I am.*

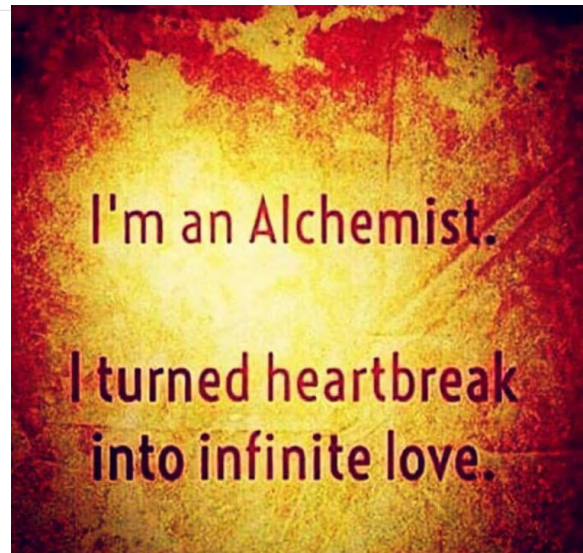

8. Close your eyes (if not already). Immerse yourself in the inner awareness. With the power of Consciousness visualise that you are burning in the violet fire of transcendence. And the longer you stay in this awareness, you are being re-aligned with your true nature as light; as boundless love.
9. To close, feel gratitude in your heart, bow to the divine, and know in your heart that transcendence is available in every eternal moment by the grace of the violet flame.

## Transmutation

- Grapes must be crushed to make wine
- Diamonds form under pressure
- Olives are pressed to release oil
- Seeds grow in darkness

Whenever you feel crushed, under pressure, pressed, or in darkness, you're in a powerful place of transformation and transmutation.

Trust the process.
